

leadership is expressed through the support of our activities such as our annual spring plant sale and our fall harvest sale to name a couple. Other times, leadership comes to the forefront in the teams we support whether that be one of our usher teams, our worship and pastoral care committee, or our Church Council to name just a few. It is this leadership, expressed in so many different ways, that has kept our church functioning for all these years during good times and bad.

We are a small congregation that has relied on these various leaders to help us to continue to be relevant and to make a difference. I can't speak for everyone, but I understand that many of these leaders have been providing their leadership for many years and are tired and in need of support if we are going to remain a viable, functioning congregation. New members need to come forward to help, whether that is as a member of an ushering team, a member of the worship and pastoral care committee or a member of church council or any of our other teams. We need your leadership now if we are to continue to function.

Our Annual Meeting is scheduled for **Sunday, April 14'th** and will commence after the church service at approximately **12:45**. Council will arrange for sandwiches and tea and coffee which we will have prior to the start of the meeting. Immediately after that meeting, we will have a congregational meeting to discuss the pilot and these other matters and determine what options are possible moving forward. Two weeks from April 14'th, i.e. April 28'th, we will have a further congregational meeting after the Sunday service to vote on whatever option the congregation decides to implement. Should you wish to discuss any of these matters further, please reach out to one of your Church Council members or you can contact me directly at (709)325-4661 or [pt2reynolds@gmail.com](mailto:pt2reynolds@gmail.com).

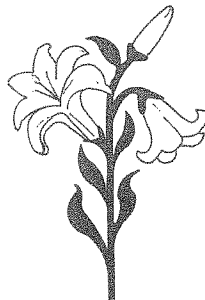

Easter is a time of resurrection, and it can be that way for us and our congregation too. The future is solely in our hands. Over the coming days, each and everyone of us need to prayerfully reflect on the future of our congregation and how your leadership skills can help sustain our impact into the future. Your Easter contribution will also help us continue to support our various community ministries.

God Bless you all.

Tim Reynolds

Council Chair
